

ME / Materials Processing Technologies

Thursday 15 ³⁰ – 17 ³⁰								
Date	02.03	09.03	16.03	23.03	30.03	13.04	20.04	27.04
Topic	H&S	3	4	1	2	5	6	test

Lecturer		Topics
dr hab. inż. Jan Jeziński, prof. PŚ	1 & 2	1. Ductile iron: properties and melting process 2. Casting defects: classification, features and methods of detections 3. Grey cast iron continuous casting process 4. Quality analysis of the casting moulding sands for the lost wax method 5. Heat treatment of cast steel and cast iron castings 6. Heat treatment of Al alloys castings
dr hab. inż. Marcin Stawarz, prof. PŚ	3 & 4	
dr hab. inż. Tomasz Wróbel, prof. PŚ	5 & 6
